ABSTRACT

This document provides a detailed listing of bachelor's and higher degrees conferred in each academic field by each institution during the period from July 1, 1968 through June 30, 1969. Table 1 presents a brief historical comparison of degrees granted from 1965-66 through 1968-69. Table 2 is a summary of the degrees conferred in 1968-69 by level of degree, sex of student, and control and level of institution. In this table data are presented separately for universities and other 4-year institutions. Table 3 summarizes degrees conferred by each institution in the survey, by sex of student and level of degree; totals by state are also shown in this table. Table 4, which forms the bulk of the report, gives the number of degrees conferred at the bachelor's, master's and doctor's level in each field by each institution. The institutions are listed alphabetically by state. Table 5 presents a similar listing for first-professional degrees. (AF)

FOREWORD

This publication is the 22nd in the U. S. Office of Education's annual series of surveys of earned degrees conferred in U. S. institutions of higher education. The questionnaire on which this report is based was part of the fourth annual Higher Education General Information Survey (HEGIS).

Readers concerned with historical enrollment trends should also refer to the Office of Education's series on opening fall enrollment and on enrollment for advanced degrees. Together, the three survey series provide a fairly comprehensive picture of the flow of students through higher education.

The Office of Education is grateful for the cooperation of the institutions of higher education that supplied data for this report.

INTRODUCTION

This publication, based on the Office of Education's 22nd annual survey of earned degrees, provides a detailed listing of bachelor's and higher degrees conferred in each academic field by each institution during the 12-month period from July 1, 1968, through June 30, 1969.

A related report concerned with the same survey will be published later. That publication will present extensive summary information by level of degree, field of specialization, sex of the degree recipient, State, level of institution, and institutional control.

Data for 1968-69 are based on a total of 1,595 institutions. So far as the Office of Education staff could determine, these were the only institutions conferring bachelor's or higher degrees during this period. Each institution provided complete survey data, making it unnecessary for the Office of Education to estimate any of the breakdowns by sex of student, level of degree, or detailed field of study. The survey universe for Earned Degrees is a part of the total higher education universe described in Opening Fall Enrollment in Higher Education, 1968: Part A - Summary Data (OE-54003-68 Part A).

A copy of the portion of the 1968-69 report form pertaining to bachelor's and higher degrees, together with definitions and instructions to respondents, is reproduced in the appendix. The 1968-69 form was identical to that used in 1967-68 except for the addition of new fields in the areas of biological sciences, engineering, and education. (See section 6(i) of the "Instructions for Part B" of the survey.)

Table 1 presents a brief historical comparison of degrees granted from 1965-66 through 1968-69. Table 2 is a summary of the degrees conferred in 1968-69, by level of degree, sex of student, and control and level of institution. In this table data are presented separately for universities and for other 4-year institutions. Classified as universities are institutions that give considerable stress to graduate instruction, confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other institutions offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year and over" group. Table 3 summarizes degrees conferred by each institution in the survey, by sex of student and level of degree; totals by State are also shown in this table. Table 4, which forms the bulk of this publication, gives the number of degrees conferred at the bachelor's, master's, and doctor's level in each field by each institution. The institutions are listed alphabetically by State. Table 5 presents a similar listing for first-professional degrees.

APPENDIX: REPRODUCTION OF SURVEY REPORT FORM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY
INSTRUCTIONS FOR COMPLETING
SCHEDULE I. DEGREES AND OTHER FORMAL AWARDS CONFERRED BETWEEN
JULY 1, 1968 AND JUNE 30, 1969
(OE FORM 2300-2.1)

SCHEDULE I IS DIVIDED INTO THREE PARTS

PART A is concerned with **first-professional** degrees only.

PART B is concerned with **bachelor's, master's, and doctor's** degrees.

PART C is concerned with awards **below** the bachelor's level (*Associate in Arts degrees and other formal awards*).

Many institutions will appropriately skip one or more of the three parts. If a particular part (*A, B, or C*) does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE THREE PARTS

GENERAL INSTRUCTIONS FOR ALL PARTS

Please examine the definitions and instructions which accompany each part. If you need additional clarification on any of them, please call Dr. Marjorie Chandler, 202-962-7301, Washington, D. C.

1. **PROMPTNESS.** Registrars are respectfully requested to complete the report form by August 15, 1969.

If degrees or other awards were conferred in 1968-69 for the **FIRST TIME** in a field of study new to your institution, please place an "X" in column (4). This will save correspondence later regarding the entry.

2. **INCLUSIVE DATES.** Report degrees conferred from July 1, 1968 through June 30, 1969 including those granted at the end of the 1968 summer session.

3. **BRANCH INSTITUTIONS.** Please be sure to indicate in items 6 and 7 whether your report includes or excludes awards to students at branches of your institution. (*Please do not include awards by branches outside the United States, its Territories, or possessions.*)

INSTRUCTIONS FOR PART A. FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS

FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS. The first-professional degrees to be reported in columns 5 and 6 are those degrees which signify the completion of the academic requirements for selected professions, which are based on programs which require at least two academic years of previous college work for entrance and which require a total of at least six academic years of college work for completion. For example, include professional degrees in Law (*LL.B. or J.D.*), Medicine (*M.D.*), Theology (*B.D.*), and so forth. Degrees beyond the first-professional in these fields are to be reported in Part B.

Report all master's degrees in Part B, columns 7 and 8 even though the master's degree is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion of the master's degree.

INSTRUCTIONS FOR PART B. BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

Please read the instructions before entering the data for your institution. Paragraph No. 2, Grouping of Subject Fields, which explains the arrangement of the form, and Paragraph No. 3, Skipping Inapplicable Sections, should help to expedite completion of the Schedule without impairing its accuracy or completeness.

1. **TYPE OF DEGREES.** Report EARNED bachelor's, master's, and doctor's degrees (*not honorary*). Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work. Do NOT report certificates for course work beyond the bachelor's. Report First-Professional degrees in Part A. Report Associate in Arts degrees or similar awards below the bachelor's degree in Part C.

2. **GROUPING OF SUBJECT FIELDS.** Glance through the report-form to observe how the various fields of study have been grouped. Most of the subject-fields have been classified under the following 18 boldly capitalized headings:

AGRICULTURE	FOREIGN LANGUAGES
BIOLOGICAL SCIENCES	AND LITERATURE
BUSINESS AND	HEALTH PROFESSIONS
COMMERCE	HOME ECONOMICS
COMPUTER SCIENCE	MATHEMATICAL
AND SYSTEMS	SCIENCES
ANALYSIS	MILITARY SCIENCES
EDUCATION	PHILOSOPHY
ENGINEERING	PHYSICAL SCIENCES
ENGLISH AND	PSYCHOLOGY
JOURNALISM	RELIGION
FINE AND APPLIED	SOCIAL SCIENCES
ARTS	

A few fields, such as Architecture, City Planning, Folklore, Forestry, Law, and Records Management have been listed independently with boldly capitalized headings. A glance through the form will suffice to identify these headings. Attention is also called to the "Broad General Curriculums and Miscellaneous Fields" on the last page of the report-form.

3. **SKIPPING INAPPLICABLE SECTIONS.** If your institution does not grant degrees in the area covered by a boldly capitalized heading, you may SKIP ALL THE ITEMS UNDER THAT HEADING. Thus, most registrars will properly skip the entire section headed Agriculture. Similarly, many will properly skip the sections on Health Professions and on Religion. Technological schools will generally skip the section on Fine and Applied Arts. Men's colleges will skip the section on Home Economics.

4. **NUMBER OF DEGREES.** Report all degrees (*within the limitations of paragraph 1, above*). If a student earned two degrees between July 1, 1968 and June 30, 1969 (*e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year*), report both degrees, each classified separately. This is a survey of degrees conferred, not necessarily a count of different students receiving degrees.

5. CATEGORY OF DEGREES.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in columns 5-6 of the report-form. Also, report ALL Bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAMS in columns 5-6. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) **MASTER'S DEGREES.** The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Report all master's degrees in Part B, columns 7 and 8 (*even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.*)

The master's degree in professional fields is an advanced degree beyond the first-professional but below the Ph.D. degree (*e.g., the LL.M.; M.S. in Surgery, following the M.D.; M.S.D.; Master of Science in Dentistry; etc.*) Report all master's in professional fields in Part B, columns 7 and 8 even though the first-professional degrees in those fields are reported in Part A.

(c) **DOCTORATE.** The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. (*In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.*) Please report the doctor's degrees (*except when such degrees are first-professional*) in columns 9 and 10 of the report-form.

6. CLASSIFICATION OF DEGREES WITH RESPECT TO MAJOR FIELD OF STUDY.

(a) **Specific Classification.** Classify degrees as SPECIFICALLY as the list of fields in the report-form permits. Thus, a bachelor's degree in Business Administration with a major in Accounting should be reported in Accounting (Item 2002), NOT in Business and Commerce, general (Item 2001).

(b) **Degree of Doctor of Philosophy.** Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) **Majors of students prepared to teach.** The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, Biology, Mathematics, or Social Studies, should be reported in English (Item 2901), Biology (Item 1704), Mathematics (Item 5601), Social Sciences (Item 7701), etc.—and NOT in Secondary Education (Item 2359). On the other hand, the degrees of students who have prepared to teach such special subjects as Agriculture, Art, Music, etc. should be reported in Agricultural Education (Item 2319), Art Education (Item 2322), and Music Education (Item 2336). (*The system of reporting prescribed in this paragraph fits in with, and supplements, data available from other sources.*)

(d) Split and Double Majors. When a student graduates with a split major or a double major - e.g., in Spanish and French - report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. *(If the split or double major involved Spanish and an unlisted language, the second language would be reported in Other Languages).* Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) Unlisted Fields of Study. Degrees in fields of study which are not listed should be consolidated with the listed fields if such consolidation is descriptive of the specialization. Thus,

Sculpture should be reported in Fine and Applied Arts, Other Fields of Study (Item 3213);

Astrophysics should be reported in Astronomy (Item 6804);

Geochemistry should be reported in Earth Sciences, Other Fields of Study (Item 6828);

Criminology should be reported in Sociology (Item 7725);

Police Administration should be reported in Applied Social Sciences, Other Fields of Study (Item 7746);

Industrial Design should be reported in Fine and Applied Arts, Other Fields of Study (Item 3213) or in Architecture (Item 1400)—depending on the nature of the curriculum; and so on.

(f) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form such as Physical Sciences, general, (Item 6801); Social Sciences, general (Item 7701); Arts, general program (Item 8301); etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social Sciences, general.

(g) Interarea fields of study. Item 8313 is for reporting fields of study which represent two or more broad SUBJECT AREAS; for example, MASS COMMUNICATIONS, encompassing segments of PSYCHOLOGY, EDUCATION, BUSINESS, JOURNALISM, SOCIAL SCIENCES, FINE ARTS, etc., should be reported here. Specify the name of the interarea field of study when reporting in Item 8313.

(h) If the field of study does not fit into any of the listed fields, report in Item 8314, Field of Study Not Classifiable in Items 1000 through 8313 above.

(i) Fields of study are the same as those used in 1967-68 with the following additions:

Biological Sciences
Molecular Biology
Engineering
Biomedical Engineering
Ceramic Engineering
Education
Education of the Gifted
Special Learning Disabilities
Education of the Multiple Handicapped
Administration of Special Education
Within the field of Education, the single category Education of the Visually Handicapped has replaced two categories (*Education of the Partially Sighted and Education of the Blind.*)

Clinical Veterinary Medical Sciences (Report in Item 4452)

Foods and Nutrition (Report in Item 4710)

Food Technology (Report in Item 1016)

Pharmacy (Report in Item 4431)

Distinguish PREMEDICAL, PREDENTAL, and PREVETERINARY SCIENCES from BIOLOGY, GENERAL, Item 1704. The former, in general, includes curriculums in which the premedical sciences predominate, without specialization in any one specific subject. The last year or two of such a curriculum is frequently taken in a MEDICAL, DENTAL, or VETERINARY school. BIOLOGY, GENERAL typically includes curriculums oriented toward preparation for the teaching of biology in high school or college, or toward further specialized study in such fields as MICROBIOLOGY, ENTOMOLOGY, GENETICS, etc. When the distinction between Items 1701 and 1704 is difficult to make, classify in the broader category (Item 1704).

NOTE: Students intending after graduation to enter schools of MEDICINE, DENTISTRY, or VETERINARY MEDICINE are not necessarily enrolled in PREMEDICAL, PREDENTAL, or PREVETERINARY programs (Item 1701); some of them choose to take more specialized programs, in which case their degrees should be reported in Item 1713, ANATOMY and HISTOLOGY; Item 1721, BIOCHEMISTRY; etc.
